Artificial Intelligence | Machine Learning | Data Science

Projects

House Price Prediction Web App [\[Link\]](#)

- Built and deployed a regression-based machine learning web app using Flask and scikit-learn to predict housing prices based on user inputs.
- Integrated Linear Regression and Random Forest models; enabled real-time prediction with a RESTful API and achieved 90%+ accuracy.

Sentimental Analysis Using Machine Learning [\[Link\]](#)

- Developed a sentiment classifier using NLP and models such as Logistic Regression, SVM, and Deep Learning with Keras/TensorFlow.
- Processed social media and review texts with ~89% accuracy; integrated SQL for storing sentiment labels and insights.

Expense Tracker Web Application [\[Link\]](#)

- Built a responsive personal finance manager using HTML, CSS, and JavaScript with categorized tracking and visual analytics
- Provided a smooth UI/UX and real-time charting for spending habits.

Internships

Data Analyst Intern–Icliviaa & Analytics Career Connect (Remote)

(July-Present) 2025

- Performing exploratory data analysis (EDA), visualization, and reporting using Python libraries (Pandas, Matplotlib) and Excel.
- Creating interactive dashboards and reports to present insights for strategic decision-making.

Machine Learning Intern– Future Intern (Remote)

(June-July) 2025

- Applied ML algorithms on real-world datasets with a focus on model development, data preprocessing, and evaluation using Python and scikit-learn.
- Collaborated with peers to deliver actionable insights and complete practical ML tasks aligned with business goals.

Machine Learning Intern– TechnoHacks EduTech Official (Remote)

(Aug-Sep) 2024

- Applied ML algorithms on real-world datasets with focus on model building, data preprocessing, and evaluation using Python and scikit-learn.
- Collaborated with peers to deliver actionable insights and complete practical tasks aligned with learning goals.

Education

Tpct's College of Engineering, Dharashiv (Osmanabad), Maharashtra

B.Tech in Artificial Intelligence & Data Science – 7.09 CGPA

2025

Government Polytechnic College, Dharashiv (Osmanabad), Maharashtra

Diploma in computer science (77.31%)

2022

Aarya Chankya High School, Dharashiv (Osmanabad), Maharashtra

SSC (10th) (81.80%)

2019

Certifications

- Introduction to Artificial Intelligence – Infosys Springboard
- W Basics of Python – Infosys Springboard
- Machine Learning – FreeCodeCamp

Additional Skills

- Programming Languages: Python, SQL, Java, JavaScript
- Libraries & Frameworks: Pandas, NumPy, scikit-learn, TensorFlow, Keras, Matplotlib, Seaborn, Flask, Bootstrap
- Tools & Platforms: Jupyter, PyCharm, GitHub, REST API, HTML, CSS
- Core Skills: Machine Learning, Deep Learning, NLP, OOP, Data Analysis

Interests

- Artificial Intelligence: Focused on developing AI models, using SLM for personal projects, and fine-tuning models.
- Web Development: Enjoy creating interactive and functional web apps using front-end and back-end tools.
- Podcast Listening, Trekking, Learning New Technologies
